

# state

*noun*

01

a territorial monopolist of compulsion and ultimate decision-making

02

may engage in continual institutionalised property rights violations and exploitation in the form of expropriation, taxation, and regulation of property

03

the group within society that claims for itself the exclusive right to rule everyone under a special set of laws that permit it to do to others what everyone else is rightly prohibited from doing, namely aggressing against person and property

04

a gang of thieves writ large
